Walk - Thru Options On Service Doors Series AMWT - 600

PASS DOORS / WICKET DOORS

Where convenient personnel passage is required, a metal passdoor within the Rolling Door can be ordered. The pass door and frame are hinged to swing clear of opening when desired to give full use of door width with no obstructions. The door frame is constructed of sturdy structural steel and the door can be ordered with vision panels and mortised to accept special locksets. On motor operated Rolling Doors, include electrical interlocks (cut-out switches).
